

PARKLANE TOWERS

Security and protection at all hours!

The formal entrance—vestibule area is one of the distinctive features of Parklane Towers. Framed by the white brick walls, terrazzo floors and specially lighted windows, this first impression is of elegance and luxury. The doors, trimmed in anodized gold, are locked for your protection...released only by your key or the individually-controlled, electronic intercom system. Visitors at your discretion... protection is automatic. + + +
